Gordons Hill Road Interchange – Tasman Highway off-ramp

The proposed off-ramp will provide vehicles on the Tasman Highway a more direct access to Rosny Park and Bellerive.

The design includes:

- construction of a 500-metre off-ramp to connect the Tasman Highway to Gordons Hill Road.
- a raised traffic island to prevent right-hand turns from the exit onto Gordons Hill Road, towards Lindisfarne.
- a retaining wall between the off-ramp and the Tasman Highway.
